

Efficiency and Productivity Programme

ProCure22 Awards Announced for 2020

Capital and operational cost efficiencies totalling £14.9m for NHS clients through the ProCure22 Standard Components initiative announce the winners for 2020.

This year's awards were handed out remotely by Cliff Jones, Head of Construction Procurement NHS Estates and Facilities and Sarah Ricketts, BAM Construction and chair of the working group, who commented

"The efficiency programme continues to grow and goes from strength to strength. It's a pleasure to work with such an enthusiastic and dedicated supply chain, supporting our NHS clients to gain capital cost savings as well as benefits such as innovation, extended warranties and product design."

Simon Corben, Director and Head of Profession, NHS Estates and Facilities of NHS England and NHS Improvement, Commercial Directorate added *"I have been overwhelmed by the spirit and community of the P22 supply chain, the can do attitude that they have adopted be it in improving performance or delivering the Nightingale programme, is unrivalled. Many congratulations to our award winners"*

The winners of the award for NHS Capital Cost Savings were **Armitage Shanks** in collaboration with **Wolseley UK Ltd** and **Forbo Flooring UK Ltd**.

While **Tarkett Ltd**, **Polyfor Ltd** and **Altro Ltd** were recognised for their collaboration and outstanding support to deliver the Nightingale Hospitals.

The 2020 Winners

Forbo Flooring are extremely proud to receive the P22 award 'In recognition of the capital cost savings achieved through the standard component programme'.

At a time where the NHS have been tested like never before, we're honoured to do our bit to ensure that facilities are turned around and fit for use in as quick a time as possible and for the best possible price.

We will continue to innovate and develop products that save time and money for the NHS".

Thank you NHS!

Sharron Kapellar - National Framework Manager

Tarkett are truly honoured to be awarded the ProCure22 Efficiency and Productivity Programme in recognition of our collaboration with the Nightingale Hospitals and the support given in 2020.

It was a privilege to be able to support the NHS and to work alongside all the stakeholders who rallied together to equip the country with the temporary field hospitals, some of which were completed in just days. Thanks to our UK manufacturing facility, strong supply chain and excellent logistics, we were able to respond quickly and deliver the required flooring to ensure staff and patients were provided with a clean and safe environment. Being able to do our part in one of the hardest years many of us have faced, and to be recognised for that, has filled the team with pride, thank you for the award.

2020 was not the year that any of us had planned, but together we are stronger and together we will get through the pandemic. Tarkett. Doing Good Together.

Mark Burton National Lead Healthcare

As a UK manufacturer and long-standing supplier to the NHS, we are extremely proud to be recognised. **Polyflor** has always understood the important role it plays in supporting the NHS supply chain and in a challenging year our commitment to unrivalled service levels, UK based infrastructure and stock holding paid dividends. The collaboration via P22 enabled efficient communication and decisive action when it was needed most to support the delivery of the Nightingale Hospital projects within an unprecedented timescale. On behalf of the team at Polyflor thank you for this award.

Paul Taylor National Sales Manager

I'm really happy to receive the award on behalf of the team involved at **Wolseley**. I have been supporting P22 since its conception in 2013 (when it was called P21) It's a great framework offering massive savings to the NHS through product standardisation and a close working partnership with both the contractors and Ideal Standard.

Wayne Calland-Hewitt
Technical Support Manager

Within these difficult times, we rely on organisations and people to pull together. Earlier this year it was an honour and a pleasure for **Altro Ltd** to help and support BAM Construction with two major Nightingale Hospital projects - Harrogate Conference Centre and Exeter. Altro manufactured and supplied large quantities of Adhesive Free Flooring, plus other products within our portfolio, at extremely short notice. Working alongside BAM Construction, a valued supply chain partner, it was very pleasing to see the fantastic achievement from all involved.

Steve Gregory National Business Development Manager

Armitage Shanks are proud to be part of the Procure 22 Framework. Supplying Standard Components for Repeatable Rooms to help meet Health Technical Memoranda (HTM) and Health Building Notes (HBN) obligations, as well as all users within the hospital environment. The Framework allows collaboration which provides efficiency for every project we are involved with.

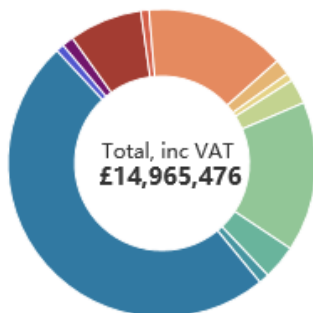

Liam Ansell Key Account Manager

The ProCure22 Website

Procure 22 Efficiency and Productivity Programme (EPP) maximises value through standard components, improving capital and operational cost efficiencies.

StandardShare
