ProCure22 Awards Announced for 2021

£ 21.6m capital and operational cost efficiencies for NHS clients through the ProCure22 Standard Components initiative announce the winners for 2021.

With no P22 stand at the IHEEM conference on the 19th and 20th October 2021 the awards were handed out remotely by Sarah Ricketts, BAM Construction the chair of the working group, who commented

“We continue to be amazed by the dedication our recommended suppliers offer the framework especially through these extraordinary times. They consistently step up to all the challenges brought on by the pandemic and remain proactive and enthusiastic delivering a superb service.”

Cliff Jones, Head of Construction Procurement NHS Estates and Facilities added

“I would like to congratulate these companies for their contributions to the P22 Framework that resulted in their receipt of this P22 Framework Award. I would like to take this opportunity to thank all the other P22 Standard Component Suppliers for their continued support and assistance for the P22 Framework throughout what has been a challenging year for everyone.”

The winners of the award for NHS Capital Cost Savings were **Armitage Shanks** in collaboration with **Wolseley UK Ltd**.

While **Whitcroft Ltd** was recognised for their Added Value and Contribution to the Framework and work on the Nightingale Centres.

The 2021 Winners

I am delighted to accept this award on behalf of **Whitecroft Lighting**. Whitecroft Lighting was proud to support the NHS and ProCure22 Framework with the supply of bedhead luminaires to the network of emergency Nightingale hospitals set up to cope with a surge of Covid-19. The process from design through to production took two days and the products were delivered and installed within five days of being ordered. All the Whitecroft team doubled their efforts and worked together as a business to support the NHS during this challenging time; an organisation which we have extensively worked with across the country for over 30 years. We have continued to work in collaboration with the P21/P21+ and P22 since 2013 and have achieved huge cost saving, energy reduction savings and provided many solutions for the Healthcare Environment. Karen Bramman, Healthcare Director

It's a great feeling to be continually recognised by such an important framework. Hopefully **Armitage Shanks** are contributing to the greater good for the NHS.

It's really great to receive this award on behalf of all the team involved at **Wolseley**,

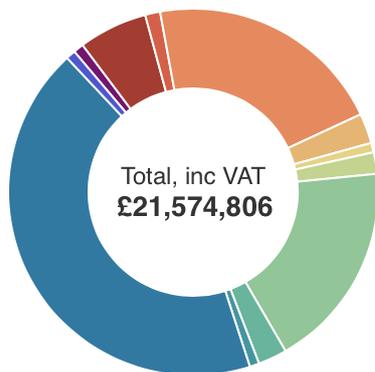

ProCure22 has proven to be a great framework for all involved and its success is attributed to the close working partnership's with both Ideal Standard and the Contractors involved.

The ProCure22 Website

ProCure22 Efficiency and Productivity Programme (EPP) maximises value through standard components, improving capital and operational cost efficiencies.
